**You are about to purchase a product that is not simple and may be difficult to understand.**

## What is this product?

|                   |  |
|-------------------|--|
| <b>Type</b>       | This product is a derivative contract in the form of a forward relating to currencies.   |
| <b>Objectives</b> | <ul style="list-style-type: none"> <li>The objective of this product is to exchange an agreed amount of one currency for another currency at an agreed exchange rate (forward rate) on a future date (maturity date). It may be used as a protection against adverse changes in exchange rates.</li> <li>The product achieves its objective by you and Nordea agreeing to the terms of the FX Forward, under which you agree to pay Nordea an agreed amount in one currency and Nordea agrees to pay you an agreed amount in another currency on the maturity date.</li> <li>Payments under an <b>FX Forward</b> consist of the agreed amounts in the two currencies which are based on the agreed forward rate.</li> <li>The forward rate is the sum of the current exchange rate (the FX spot rate) and the forward points (i.e. the difference in interest rates in both currencies for the maturity date of the product).</li> <li>The market value of the FX Forward is exposed to changes in the current exchange rate between the two currencies and changes in the market interest rates in both currencies for the time to maturity of the product.</li> <li>The FX Forward is a bilateral agreement that cannot ordinarily be terminated unilaterally by either you or Nordea. It is a product that is entered into for its term, although early termination may occur in the event of a default of either you or Nordea. The agreement between you and Nordea provides that if certain exceptional events occur (1) Nordea may make adjustments to certain products and/or (2) Nordea or you may terminate the product early. These events are specified in more detail in the General Terms and Conditions between you and Nordea. The product may also be terminated upon mutual agreement. The amount (if any) you receive or pay on such early termination is likely to be different from the scenarios described in this document.</li> <li>You may not be able to terminate this product even though you or Nordea have terminated or discontinued a product or a commercial flow that this product is aimed to hedge.</li> <li>Illustrative terms are set out below, which are illustrative of the terms of an FX Forward, but which do not reflect the exact terms you agree with Nordea. The exact terms will be set out in an individual trade confirmation.</li> </ul> |

|                       |            |
|-----------------------|------------|
| <b>Nominal amount</b> | 10,000 USD |

## Intended retail investor

The product FX Forward is aimed at retail clients, who are interested in capital growth, hedging, income and other investment objectives and who have a short-term investment horizon of less than 3 years. The FX Forward is a product for basic investors, informed investors or advanced investors.\* The investor is able and willing to bear losses up to a certain range of the investment amount and puts no moderate emphasis on capital protection. On a scale of risk ranging from 1 (very low risk tolerance; very low to low return) to 7 (very high risk tolerance; highest return) the product FX Forward falls in risk category 7.

\* Basic investors have basic knowledge of relevant financial instruments and/or with no financial industry experience. Informed investors have average knowledge of relevant financial products and/or some financial industry experience. Advanced investors have good knowledge of relevant financial products and transactions, and/or financial industry experience or accompanied by professional investment advice or included in a discretionary portfolio service.

## What are the risks and what could I get in return?

### Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. We have classified this product as 7 out of 7, which is the highest risk class. This rates the potential losses from future performance at a very high level, but poor market conditions are very unlikely to impact the capacity of Nordea Bank S.A. to pay you.

When this product is combined with other products or commercial positions, the total portfolio will have a different net risk profile. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

#### Investment 10,000 USD\*

#### Scenarios

|                       |                                     | 12 months<br>(Recommended holding period) |
|-----------------------|-------------------------------------|---|
| Stress scenario       | What you might get back after costs | 6,339.33 USD                              |
|                       | Average return each year            | -38.39%                                   |
| Unfavourable scenario | What you might get back after costs | 8,555.99 USD                              |
|                       | Average return each year            | -15.15%                                   |
| Moderate scenario     | What you might get back after costs | 9,555.6 USD                               |
|                       | Average return each year            | -4.66%                                    |
| Favourable scenario   | What you might get back after costs | 10,650.22 USD                             |
|                       | Average return each year            | 6.82%                                     |

This table shows the money you could get back over the next 12 months, under different scenarios, assuming that you invest 10,000 USD. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where Nordea Bank AB (publ) is not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

\* The calculation is based on the notional of the contract (in this example 10,000 USD).

## What happens if Nordea Bank S.A. is unable to pay out?

When buying the product you assume a credit risk on the issuer. In the event of the issuers bankruptcy, the holder of the product will have an unsecured claim versus the bank. Note that the product is not covered by any deposit guarantee scheme.

## What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for the recommended holding period. They include potential early exit penalties. The figures assume you invest 10,000 USD. The figures are estimates and may change in the future.

### Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

| Investment 10,000 USD           | If you cash in at the recommended holding period |
|---------------------------------|--|
| Total costs                     | USD 20.00  |
| Impact on return (RIY) per year | 0.2%   |

### Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

### This table shows the impact on return per year

|               |                             |      |   |
|---------------|-----------------------------|------|---|
| One-off costs | Entry costs                 | 0.2% | The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. |
|               | Exit costs                  | n.a. | The impact of the costs of exiting your investment when it matures.   |
| Ongoing costs | Portfolio transaction costs | 0%   | The impact of the costs of us buying and selling underlying investments for the product.                              |
|               | Other ongoing costs         | 0%   | The impact of the costs that we take each year for managing your investments and the costs presented in Section II.   |

### How long should I hold it and can I take money out early?

#### Recommended holding period: 12 months

This product is designed for staying invested until the maturity date.

This product cannot easily be cashed in. This means that it will be difficult to estimate how much you would get back if you cash in before the maturity date. You will either be unable to cash in early or you may have to pay high costs or make a large loss if you do so.

### How can I complain?

Any complaint regarding the product or the conduct of the manufacturer or persons within Nordea advising on, or selling the product can be submitted under the following website <https://www.nordeaprivatebanking.com/home/contact/contact/advice-pages/how-to-complain.html> or in written form to Nordea Bank S.A., Compliance Department, 562, rue de Neudorf, P.O.Box 562, L-2015 Luxembourg.

### Other relevant information

Arrangements for mitigating credit risk may also be agreed between you and Nordea when required. The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.
